

VITAPLEX V8

A Nutrient-Rich
Biological Solution

MORE NUTRIENT
AVAILABILITY

IMPROVED SOIL
STRUCTURE

INCREASED
CROP YIELDS

BETTER WATER
RETENTION

IMPROVED WATER
QUALITY

IMPROVED SOIL
FERTILITY

Vitaplex V8 is a liquid biological amendment
derived from high-quality vermicompost.

It's designed to improve soil health, enhance
plant growth, and increase crop yields.

SFS

BIOLOGICAL SOIL
& PLANT HEALTH

Key Benefits of Vitaplex V8:

- **Improved** soil structure
- **Enhanced** nutrient availability
- **Increased** plant growth and development
- **Better** water retention and drainage
- **Reduced** reliance on fertilisers
- **Increased** crop yields
- **Improved** soil fertility
- **Reduced** soil erosion
- **Increased** pest and disease resistance
- **Improved** water quality

Promotes healthy soil conditions and improves nutrient uptake

Vitaplex V8 offers a sustainable and effective way to improve soil health and crop productivity. This product can help farmers achieve higher yields and healthier crops by harnessing the power of vermicompost and its beneficial microorganisms.

VITAPLEX V8

CRITICAL FEATURES:

- **Vermicompost-based:** Made from worm castings, a nutrient-rich material.
- **Micronised:** Small particle size for better nutrient availability.
- **Nutrient-rich:** Contains a wide range of essential trace elements.
- **Biological activity:** Promotes beneficial microbial activity in the soil.
- **Soil structure improvement:** Enhances soil porosity and aeration.
- **Plant growth stimulation:** Increases nutrient uptake and root development.
