EFFICIENCY

COMPATIBLE WITH
FUNGICIDES

Complex products are more than just nitrogen. They are based on 'complex technology' and use amino nitrogen with magnesium, potassium, boron, cobalt and molybdenum.

SFS
BIOLOGICAL SOIL
& PLANT HEALTH

Complex Booster is a complete plant food and natural growth stimulant containing a total of 27 essential plant nutrients plus biology and complex sugars.

Can be applied during times of rapid growth or high stress.

Complex Boosters directly activate major plant processes, allowing them to make better use of inputs, improving fertiliser and fungicide efficiency.

We saw a 1% increase in sugar rates

Pratt Family Partners

Variations in the range:

- Potato:** Comprehensive health promoter that ensures key nutrients are available to the crop, enabling optimal growth while maintaining plant health throughout.
- Sugar Beet:** Complete foliar feed for improving plant performance, encourages effective use of their natural resources whilst boosting health and sugars
- Maize:** Promotes better leaf health and optimises cob fill empowering maximum crop production.
