

BETTERGRASS GRANULAR

To ensure healthy and highly productive livestock, good nutrition is paramount. The best approach is for your animals to acquire their mineral requirements, in the proper balance, directly from the grass they graze.

Improved Plant Health: improves soil resilience and productivity, leading to healthier plants.

Enhanced Plant Growth: tackles nutrient deficiencies and improves soil conditions, leading to stronger plant growth.

Improved Animal Health: supports animal well-being by making sure animals receive sufficient nutrients and by addressing trace element imbalances.

Increased Productivity: by improving soil and animal health, BetterGrass helps you achieve greater agricultural productivity.

Reduces Nutrient Loss: by minimizing nutrient waste, BetterGrass helps you reduce your reliance on chemical fertilisers.

Higher Quality Milk: healthier cows thanks to BetterGrass means better quality milk.
